

Genetic counselling providers

Genetic counselling may be an important step to consider before a patient agrees to undergo genetic testing. Genetic counselling may help to clarify the questions being asked of the test, the selection of the appropriate test, the possible results from the test, and the implications of the test result for the patient and relatives.

The list below details private genetic counselling providers across Australia. There are also genetic counselling services provided by the Department of Health in each state/territory, and the details of these can be found on the Centre for Genetics Education website listed overleaf.

PUBLIC SERVICES

Centre for Genetics Education

E contact@genetics.edu.au
W www.genetics.edu.au/genetics-services

The Centre for Genetics Education website offers a list of genetic counselling services provided by the Department of Health in each state/territory. Although this is a NSW Government website, information is provided for genetic counselling services across Australia.

GENERAL COUNSELLING SERVICES

Lifeline

P 13 11 14
W www.lifeline.org.au

Scope of practice

- Crisis support
- Suicide prevention

This may be a relevant resource for patients who are in need of acute support and general advice; it does not provide specific advice on genetic matters.

beyondblue

P 1300 224 636
W www.beyondblue.org.au

Scope of practice

- Mental health support

This may be a relevant resource for patients who are in need of acute support and general advice; it does not provide specific advice on genetic matters.

Please note: This list is not necessarily complete, and we welcome the opportunity to add further providers. These services are not owned or managed by Sonic Genetics, and so we cannot recommend a specific service provider for you.

SONIC GENETICS

14 Giffnock Avenue, Macquarie Park, NSW 2113, Australia
T 1800 010 447 | E info@sonicgenetics.com.au | www.sonicgenetics.com.au
