

Harmony Prenatal Test

Practice Management Software Template for Genie

How to request the Harmony Prenatal Test using Genie referral templates

We are pleased to be able to provide a built-in template for our Non-invasive Prenatal Test Request forms.

This means you can now access the Non-invasive Prenatal Test form within Genie, populate with patient details and print off forms, just as you would with standard pathology requests.

To load templates

Step 1:

Download the template first via Special → Software Updates → Forms → Request → Harmony NIPT (Sonic). This is only required to be performed once.

Step 2:

Click on Merged Letter Icon in a patient file.

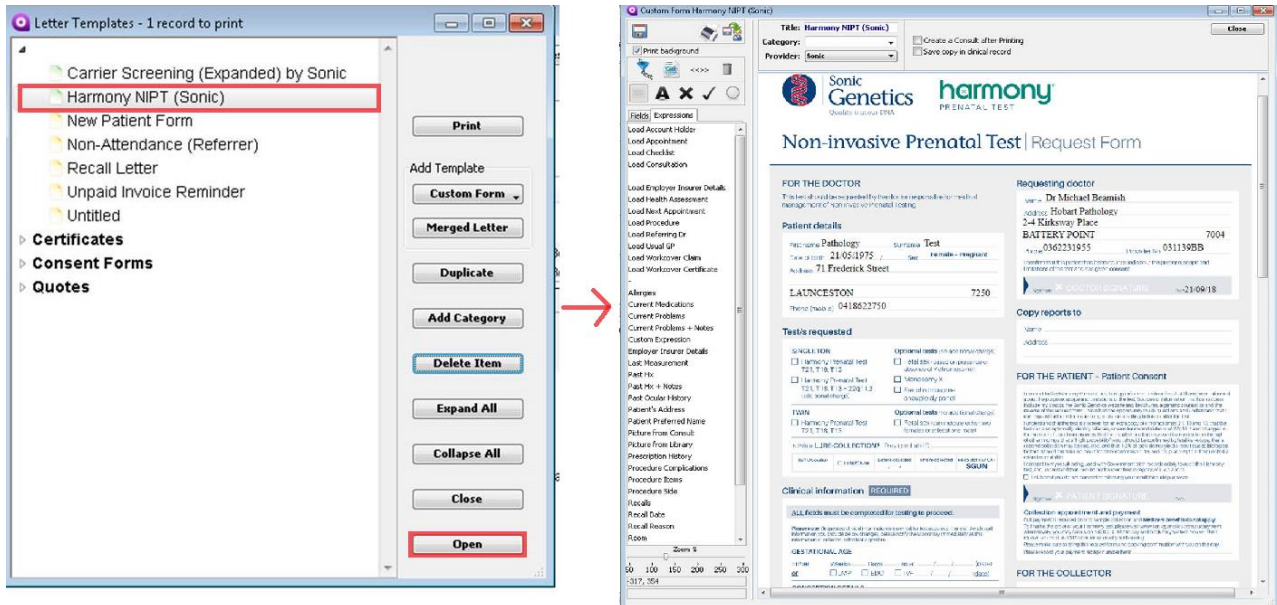

The screenshot shows the Genie software interface for a patient file. The patient's name is Mrs Pathology Test (21/05/1975) 71 Frederick Street LAUNCESTON 7250 (M: 0418622750) (H: 0363343636) - Current User Sonic. The interface includes a top toolbar with various icons, including a red circle around the 'Merged Letter' icon. Below the toolbar are tabs for 'Main', 'Other', and 'Obstetric Hx'. The main area is divided into several sections: 'ALLERGIES', 'CURRENT PROBLEMS', 'PAST HISTORY', 'SOCIAL & FAMILY HISTORY', and 'Scratchpad'. The 'CURRENT PROBLEMS' section is expanded, showing fields for 'Medicare No', 'Health Fund', 'Next Appt', 'Next Task', 'Next Recall', and 'Chart No'. The 'PAST HISTORY' section is also expanded, showing fields for 'Last Pap', 'Last HPV', 'HPV 16 Detected', 'Parity', and 'Last Mammogram'. At the bottom, there is a 'QUICKSCRIPT' section with a table for 'Cat', 'Print', 'Printed', 'Reason', 'Medication', 'Dose', 'Frequency', and 'Instri'. The table is currently empty.
